PROFESSIONAL SUMMARY

Aspiring Software Developer and Computer Science student with hands-on training experience in Python Full Stack Development at QSpiders, Noida. Skilled in Python, Django, HTML, CSS, JavaScript, React, SQL and Data Structures & Algorithms. Experienced in developing responsive web applications and AI-based solutions, including a signature verification system. Strong foundation in problem-solving, object-oriented programming and software development, with an interest in building scalable, efficient and user-friendly software solutions..

TECHNICAL SKILLS

Programming: Python, C++, JavaScript, TypeScript

Full Stack: Python Full Stack

Frontend: HTML5, CSS3, React.js

Backend: Django, Node.js, Express.js

Mobile Development: React Native, Flutter

AI/ML: TensorFlow, OpenCV, NumPy, Pandas

Database: SQL, MongoDB

Core Concepts: OOP, Data Structures & Algorithms in (Python)

Operating Systems: Linux (Basic), Kali Linux

Tools: Git, GitHub, Docker, Basic Excel

AI Tools: ChatGPT, Claude, Amazon Q, GitHub Copilot, Codex

INTERNSHIP / TRAINING

Python Full Stack Intern / Trainee

QSpiders, Noida

- Received training in Python Full Stack Development, including HTML, CSS, JavaScript, React, Django and SQL.
- Gained practical knowledge of Data Structures and Algorithms in Python, Docker and web development.
- Worked on Signature Verification and Service Provider application projects using frontend and backend technologies.

TECHNICAL PROJECTS

Signature Verification System

Python, TensorFlow, OpenCV, React, Django, SQL

- Developed an AI-powered signature verification system with approximately 90% accuracy using image preprocessing and machine learning.
- Implemented image upload, webcam capture, feature extraction, signature verification and SQL-based storage.

Service Provider App – Ongoing

Python, Django, React, React Native, JavaScript, SQL

- Developing a service booking platform connecting users with service providers through web and mobile apps.
- Working on user authentication, service browsing, booking management and database integration.

EDUCATION

B.Tech in Computer Science

2023–2027

Lamrin Tech Skills University, Ropar, Punjab

Class XII (10+2)

M.A. Islamiya Inter College, Bidhuna, Auraiya, Uttar Pradesh

CERTIFICATIONS

- Tata Young Professional Certificate
- Blockchain Basics – RISE Platform
- Python Programming – LinkedIn Learning
- Deloitte Certification

ACHIEVEMENTS

- Winner – Quiz Mania & Sports Logo Design Competition
- Finalist – Bug Jilla Hackathon
- Participant – Smart India Hackathon (SIH), ISTE and Blind Coding Competition

LANGUAGES & INTERESTS

Languages: English, Hindi

Interests: Artificial Intelligence, Programming, Problem Solving, Full Stack Development
